

Valesta Site Support:

A Complete Menu of Clinical Recruiting Expertise

engage. share. enjoy.

Which is simpler and more flexible: doing all the shopping, preparation and cooking for an elaborate meal, or going to your favorite restaurant and ordering expertly made selections from a broad menu?

Resource management for a clinical research site is much the same – you could do all the work yourself, but in the long run, turning to a trusted specialist will save you time and money whilst providing greater flexibility as your needs change.

Background

Managing the personnel needs of clinical research can be extremely challenging. The workload may fluctuate dramatically, depending on the number and types of clinical trials being run, as well as the different stages in each trial. Plus, specific trials may require different kinds of specialisation and/or levels of expertise.

Meanwhile, hospitals and other clinical research sites have a limited number of permanent team members to assign to ever-changing demands, which number may be further reduced by budget cuts, unexpected resignations and long-term leave requests.

Needless to say, personnel managers face a rather daunting task – and they usually need help in a hurry.

Solution

Partnering with a trusted human resource specialist such as Valesta Clinical Research Solutions enables personnel managers to pass the stress and worry of hiring contingent workers to a team of experts.

Valesta Site Support offers:

- A full range of clinical professionals, from young starters to experienced clinical research experts
- Personnel who have already been trained in ICH-GCP and protocol compliance
- The Valesta Academy to continually prepare clinical workers for success
- Dedicated recruiting consultants who know how to get the right people in place quickly
- Tailor-made service contracts that adapt to the specific needs of your site

The Valesta Site Support programme provides flexible solutions for clinical sites with resource needs. We have an extensive pool of clinical professionals who are qualified, specialised and best of all, ready for contract placement. Whether you need short- or long-term help with a specific study, or more general support for your hospital personnel, Valesta Site Support can rapidly supply the right people.

Our tailor-made approach allows us to create a plan that fits your unique requirements, down to the number of hours you need to budget for. We do the recruiting, screening, insuring and paperwork so you can focus on your core competencies.

Conclusion

Much like your favorite restaurant, Valesta Site Support provides a full-service offering that is able to quickly respond to your clinical research personnel needs. As our relationship grows, we will further be able to understand and anticipate your preferences. We look forward to partnering with you to create a flexible and agile workforce that exceeds your expectations.
